

FRYS.COM GOLF VIP LOUNGE

SAN MARTIN, CA

PROJECT CASE STUDY

PROJECT DESCRIPTION

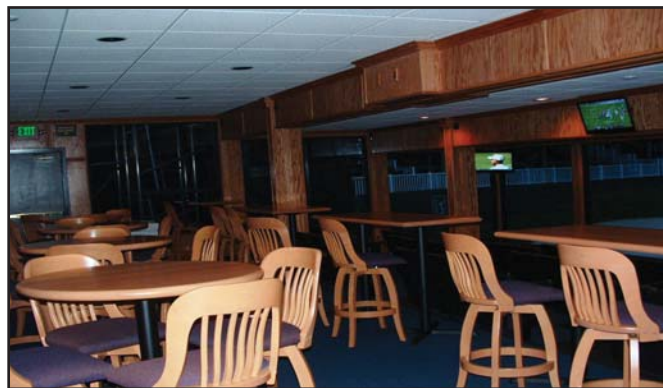

With the frys.com golf tournament around the corner, Fry's Electronics needed a VIP seating area, and they needed it quickly. They chose modular construction to fulfill their need and hired Silver Creek Industries to build a lounge.

Complete with terraced stadium seating on the roof, the 1,600 square foot lounge offers table and stadium seating on the main level, serving areas, storage space, and restrooms. Custom features include oak trim and paneling throughout, granite countertops, and 7/8" tempered impact resistant glass.

The construction, delivery and installation of this VIP lounge was completed in 45 days.
