

TIERRA DEL SOL CONTINUATION HIGH SCHOOL

BAKERSFIELD, CA

PROJECT CASE STUDY

PROJECT DESCRIPTION

The Silver Creek Industries team collaborated with Klassen Corporation and Cunningham Group to provide nearly 17,000 square feet of space for Kern High School District for their new continuation high school. Tierra Del Sol Continuation High School which opened in August 2011 consisted of 13 classrooms to house approximately 325 students, as well as a cafeteria, multipurpose building and restrooms.

Cost per students: approximately \$3,745 per modular classroom

Cost per classroom: approximately \$94,000 per modular classroom

The project was awarded to Silver Creek in January 2011 and completed in just over six months before the start of school in August 2011.
